A new musical instrument, a set of "lily pad" cymbals, was added to the Musical Park at Stagecoach Park in Evergreen, thanks to a \$3,000 grant from the Rotary Club of Evergreen. The Musical Park was installed using a \$30,000 grant from the Rotary club, following the inspiration of club member Kay LaMontagne-Treworgy. The park at 3229 E. Pinal Drive is popular with children of all ages. *Provided by the Rotary Club of Evergreen*

Rotary, parks, sheriff team up to provide bus

By David Lewis
YourHub Contributor

Thanks to South Suburban Parks and Recreation, which offers trips for young adults with disabilities, and a special mini bus, Stephen Dareau and others can get out to enjoy museums and other events.

Dareau, 34, has cerebral palsy and lymphedema. He says most of his time is spent hanging around his apartment building.

Once or twice a month, he joins others in a 14-passenger accessible bus for trips with the STAR (South Suburban Therapeutic Adaptive Recreation) program, going on museum field trips, to sports events and to other venues.

forward to a trip to the new SeaQuest aquarium. If it weren't for the program and the accessible bus where I can easily get on and off with my cane, I couldn't go."

The bus was purchased by SSPR in 2007 using money from the Littleton Rotary Club and the Arapahoe County Sheriff's Department. Each year, the Littleton Rotary Club, SSPR and the Sheriff's Department hold a golf tourney to raise money for STAR and other charitable causes.

The Littleton Rotary Club has served the area since 1922. It has nearly 90 active members and annually donates more than \$50,000 to local organizations.
